The dedicated primary PE and Sports' Premium was announced in March 2013 and began the following September. It goes directly to primary school Principals/Head Teachers so that they can decide how best to provide sporting activities for students. Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport they offer by developing or adding to the PE and sports' activities that the school already offers, or to make improvements that will benefit students joining the school in future years. Schools are free to determine how best to use this funding to improve the quality and breadth of PE and sports' provision, including increasing participation in PE and sport so that all students develop healthy lifestyles and reach the performance levels they are capable of.

Manor Green School is a Special Educational Needs School which is part of the Ascot and Maidenhead School Sports' Partnership giving the school access to a wide range of competitions, staff CPD and a young ambassador programme. The school is also connected to Get Berkshire Active (the County Sports' Partnership for Berkshire)

At Manor Green School we use the sports' funding purposefully to improve teachers' skills in teaching physical education. Students have good opportunities to develop a healthy lifestyle and improve their physical well-being, as well as developing links within the local sports' community. This year we have applied for the School Games Mark Bronze Award.

Number of students and PE and Sports Grant received 2025-26	
Number of students on roll (Sept 2025)	309
Number of students in Primary Department (Sept 2025)	101
