

Beyond the Classroom Careers Newsletter

April 2026

Welcome!

Welcome to our careers newsletter.

At Manor Green School, we are committed to providing our students with meaningful and enriching experiences. This term, they have participated in a wide range of both internal and external work placements, alongside an exciting programme of trips and visits. Our Manor Green and College Link students have certainly had a busy and rewarding month.

Following the Easter break, students have returned with great enthusiasm and have been working exceptionally hard. As they have settled back into their work placements, their progress has been fantastic to see. From roles in the on-site café to placements at Thames Valley Hospice Homestore, students have been performing brilliantly. A special mention goes to those working in the café, where their dedication and strong work ethic have made a real impression on the team. Barista training is also flourishing, with a new group of students starting this term. Amrita has been incredibly impressed with their progress and is excited to see how their skills continue to develop.

This month also included a visit to Englefield Garden Centre, where Malgo supported two students in collecting compost and selecting new fruit and vegetable plants. Adam and Daniel both worked very hard and thoroughly enjoyed the experience. We look forward to seeing how the allotment develops over the coming weeks.

Although it has been a slightly quieter month, our students have continued to thrive in their placements, and we are excited to see what the next month will bring.

SPECIAL SHOUTOUT:

Each month we like to give a special shout out to one student who has really stood out and gone above and beyond. This month's student is Christopher Samaan. Chris has been a star this month. He has been working in Starbucks and has been a real asset to the team. Everyone loves him and has been really impressed by how hard he has been working.

TOP HIGHLIGHTS OF THE MONTH

1. May Fayre!
2. Adam Wright, Oscar Gray, and Ben Miller
3. Englefield Garden Centre

We Need Your Help!

Here at Manor Green School, we are always seeking new opportunities for our students to develop their skills and gain real-world experience. If you are able to offer a work experience placement, even for just one hour a week, we would be incredibly grateful. Alternatively, the opportunity for our students to visit your workplace would also be highly valued.

Securing meaningful work experience can be challenging, which makes opportunities like these especially important. Our students are hardworking, friendly, polite, and they would truly benefit from, and thrive in a professional environment.
