

**The RBWM *Learning Disability Partnership Board* are setting up a **Parent / Carer Support Group**. For those caring for an adult with a learning disability in Windsor & Maidenhead.**

**The aim of the group is to provide friendship and support in a safe space, where individual experiences can be shared and supported.**

***We want to help break down the walls of isolation and bring people together, through their shared experiences, as well as having some fun and laughter.***

If this is something you or someone you know would like to join, then please contact, **Caroline Waites from The Advocacy People**, who will be setting the group up.
