Please note:

Working with Special Educational Needs students requires a particular understanding and appreciation of the individuals' needs and circumstances. The students that attend Manor Green School all require a greater degree of support due to their physical, learning and/or communication needs. They face significant challenges when accessing the world around them and it is our role as professionals to facilitate and enhance their experience. A broad spectrum of training will be provided on how to support the particular needs of our students.

The work will necessarily involve sitting at low tables, on the floor and may involve the manual handling of students. The environment is designed to be accessible to all, however there may be times when it is noisy and busy.

In some cases, students may display behaviours that challenge. On rare occasions these behaviours may result in verbal aggression and/or physical assault/violence towards staff.

It should be understood that this is a response to the world around them and their challenges interacting with it. We acknowledge that this can be challenging for staff and is therefore emotionally and physically demanding. We promote a culture of wellbeing for all and as staff your needs are included in this. To ensure that your emotional, physical and spiritual needs are also met, you will be able to access training, coaching and counselling services as required.

This is not an exclusive or exhaustive range of responsibilities, rather an indicative list. You may be required to carry out further duties as reasonably required and commensurate with the position.
