

Together Karting

A Unique way for your family to experience the thrill of karting together

Our Together Karting Programme provides families who have children or young adults with additional needs the opportunity to experience our unique Twin Seat Go-Kart. Children can control as much or as little of the kart as they are comfortable with, our instructor is on hand to make sure they have a safe but exciting time throughout the experience. 2 parents, siblings or carers can also join in the exclusive session in one of our adult or cadet karts. The only restrictions on participation is children must be 8 years old and must be able to enter and exit the kart with the help of attending parent/carers.

We are here to put smiles on your faces so there is no charge for this amazing experience.
